# AVIONICS UPGRADE

## PIPER MALIBU MIRAGE GETS NEW LOOK

### PIPER MALIBU MIRAGE MULTIPLE UPGRADES

This Malibu has been thru our shop for upgrade on three occasions starting with the GMX 200 install in 2012. We added the Aspen EFD1000 Pro PFD with SV & EA100 Autopilot AHRS in 2015 for enhanced safety, performance and reliability. Finally, in early 2016, we updated the primary navigation systems and added ADS-B OUT capability with the Avidyne IFD440 touchscreen GPS/Nav/Com, Garmin GNC 255A Nav/Com and Avidyne AXP340 ADS-B transponder. The owner is planning further upgrades with Heritage.
