

AVIONICS UPGRADE BEECH V35B BONANZA AVIONICS AND PANEL UPGRADE

AIRCRAFT OWNER REQUESTS "ONCE IN A LIFETIME" AVIONICS UPGRADE

This exquisite 1981 V35B Bonanza was overdue for an avionics upgrade so the owner consulted with Heritage for options. Research into the customer's requirements and careful planning led to this "once in a lifetime" upgrade that will serve his flying needs well into the future. Synthetic vision, ADS-B traffic & weather data, lightning detection and engine monitoring makes for a safer and more capable aircraft than ever before.

Results: One very happy customer!
