

Heritage Aviation Expands Avionics Expertise as Newly Authorized Garmin Aviation Service Center

South Burlington, Vermont – June 26, 2024 – Heritage Aviation, the leading aviation services company based at Patrick Leahy Burlington International Airport (BTV), is proud to announce it is now an authorized Garmin Aviation Service Center. This exciting development allows Heritage Aviation to offer its customers a wider range of service and support solutions from Garmin Aviation, further solidifying its commitment to providing exceptional service in the region.

“We are thrilled to become an authorized Garmin Aviation Service Center,” said Matthew Collins, CEO at Heritage Aviation. “Garmin is a renowned leader in avionics technology, and this service center recognition allows us to directly provide our customers with the most innovative and reliable avionics support available. Garmin avionics not only enhance the flying experience but also contribute to increased safety and efficiency.”

As an authorized Garmin Aviation Service Center, Heritage Aviation’s team of experienced technicians can service and maintain a comprehensive range of Garmin avionics solutions, including GPS navigators, autopilots, communication systems, and weather radar. In addition, Heritage will offer expert advice and guidance to meet individual customer needs and provide exceptional after-sales support, including warranty service and ongoing maintenance.

“Heritage Aviation has a stellar reputation for airframe and avionics work that compliments its dedication to customer satisfaction. We are happy to welcome them as a new addition to the Garmin service center community, and we look forward to working with the team at Heritage to provide Garmin customers the highest level of service and support,” stated Jim Alpiser, Garmin Director Aviation Aftermarket Sales

About Heritage Aviation

Heritage Aviation is a 100% employee-owned – Certified B Corporation aviation services company that provides Fixed Base Operations, Maintenance, and Avionics services from Patrick Leahy Burlington International Airport. As an award-winning FAA Part 145 certified repair station, Heritage Aviation is renowned for its exceptional customer support and comprehensive suite of services.
